

NARA Emergency Response Network

Coastal Evacuation Quick Reference

Public quick reference. This document is not a replacement for official emergency directions from authorised agencies.

1. Call official emergency services immediately for life-threatening incidents.
2. Move people away from the shoreline, rivers, canals, and low-lying coastal roads.
3. Record location, time, affected people, visible hazards, and contact person.
4. Keep routes clear for Police, DMC, Coast Guard, Navy, health teams, and local authorities.
5. Use the NARA online report form for marine/coastal observations after urgent calls are made.

Immediate danger: call the relevant official emergency service first, then submit online reports when safe.
