

NARA Emergency Response Network

Evacuation Map Quick Reference

Public quick reference. This document is not a replacement for official emergency directions from authorised agencies.

1. Select the closest coastal district and map overlay before printing or sharing.
2. Use maps as planning support only; follow DMC, Police, Coast Guard, Navy, and local authority directions during an incident.
3. Share coordinates when reporting a marine emergency.
4. Keep printed maps in the harbour office, divisional secretariat, school office, and community shelter.
5. Review evacuation routes regularly because road closures and construction can change safe movement paths.

Immediate danger: call the relevant official emergency service first, then submit online reports when safe.
